LiveAuctions.TV 2.0

HERE'S HOW IT WORKS

Go to **www.LiveAuctions.tv.** Please note that you do NOT need an account to watch the auction, but you do need to register an account and request a buyer number if you wish to bid. If you have not created a new account since September 1st, 2020 you will need to click "Register" in the top right corner of the homepage and create a new account. Once you have completed the form on this registration page and hit the "Register" button you will receive an e-mail with a place to click on to verify you have entered a valid e-mail address. Once you have completed this registration process, find the auction you are interested in on the homepage and click on it (sales are listed in chronological order). You should then see a box that says Login. Now that you have an account with LiveAuctions just type in your E-mail Address and Password. You will now see a hyperlink at the top that says "Request a Buyer Number". The first time you request your first buyer number on LiveAuctions it will send you a text message with a verification code in it. Type the code from the text message into the area requiring it and you will then see your name along with a buyer number listed at the top of the webpage where the live video is and you will be able to bid. You will only have to complete this two-step verification process one time. After that you will be able to immediately request a buyer number on any auction without verification through an e-mail or text message again.

LiveAuctions no longer requires an app. If you wish to view/register/bid on a smartphone just type LiveAuctions.tv in whatever web browser you use. The registration process is the same as it is on a desktop computer, but the website is built mobile friendly. Click on the three lines in the top right corner to access the menus.

Bidders who are successful in making purchases will be contacted by the ranch after the sale to settle payment and discover your shipping plans. If you have questions or need help please call our customer support at (817) 725-8595.

How Much Is A Bull Worth

We know that more pounds pay more dollars. Cattle Fax research shows that the most profitable producers in the US pay more for their bulls than other producers do. The most profitable producers know that a cheap, low quality bull can be your most costly mistake. Remember a bull's genetics makes up half the entire calf crop. Buying a good bull yields excellent returns on your investment.

Let's use EPDs and do a little "Cowboy Math" to figure out how much a superior bull is worth if you sell your calves at weaning:

(Bull A's WWt EPD 60) minus (Bull B's WWt EPD 50) =

10	Pounds more WW from Bull A
X 25	Number of calves per breeding season
250	Extra pounds of calf weaned per season from Bull A
X 5	Average number of years useful life per bull
1250	Total pounds increase during the life of the bulls
X $1.40	Price per pound at Weaning
$1,750	More value in bull A's calves vs. bull B's calves during their lifetime just due to 10 pounds of weaning Weight EPD.*

**If you use your bulls in both fall and spring then he is worth $3,500 more. Just adapt the numbers to fit your situation and see how much more our bulls are worth to you. With these conditions, for every 10 pound advantage in Weaning WT. EPD, a bull returns to you $3500. Therefore, if Bull A is 30 pounds heavier than bull b for Weaning Wt EPD, then he will return to you an additional $10,500 over his lifetime.*
